A selection of the best truly hardy varieties PERENNIALS

HARDY LILIES

OWN ROOT LILACS - EVERGREENS SHRUBS - WOODLAND FERNS

F. H. HORSFORD

Our 1944 Catalog...

Represents our best effort to list and describe our stock in the briefest, most concise and economical way in keeping with these war times and conditions. It will be supplemented about August 1st with a list of Iris, Peonies and other items best planted in the Fall.

PRICES

Quality considered, we do not believe the values we offer can be equaled anywhere in the North. We have had to increase the prices of a very few items that we cannot propagate here readily but in general, all of our perennials, hardy ferns and shrubs are offered at our old rates, or with only negligible increases.

SPECIALTIES

In pursuance of our aim to handle only the best in the hardy plant line we are offering this year only those Hardy Lilies that we can certify as free of the insidious mosaic disease. This step precludes our offering some varieties we formerly carried and postpones delivery of others until autumn. See page 11 of this Catalog for further information.

Our list of Hardy Chrysanthemums includes the latest introductions in the varieties that are truly hardy and that will flower early enough to escape damage from frost.

In the Hybrid Lilacs, often called "French Lilacs," we are handling only plants grown on their own roots. This ensures our customers the best and most satisfactory stock obtainable. While our list is somewhat limited at present, we have a number of varieties in stock not offered in this Catalog and invite your writing us for any desired sort not listed on page 24.

NOTICE: Regarding small lots of assorted plants or shrubs.

One to four plants of one identical kind or color will be priced at the each rate, except in the case of perennials where the rate for three of the same kind is 60 cents.

This is necessary as each different kind or color has to be wrapped and labeled separately and considerable time is required to assemble an order made up of small lots of kinds that are widely separated over the nursery.

SEE ORDER BLANK FOR COMPLETE INFORMATION ABOUT TERMS, PAYMENT, AND SHIPPING

NEW PERENNIALS AND OTHERS OF ESPECIAL INTEREST

DWARF HYBRID ASTERS. Here is a wonderful new class of Dwarf Hardy Asters for beds, borders, and the rock garden growing from 9 to 15 inches high. They make striking mounds of color in September when few other low flowering plants are to be seen.

Daphne. Attractive soft pink flowers.

12–15 in.

Diana. Delicate and appealing blush pink. 15 in.

Hebe. Clear lavender-blue flowers with showy effect. 15 in.

Lavanda. Light blue flowers of a vivid and pure color. 15 in.

Lilac Time. Mounds of deep violet-blue

of startling effect. 15 in.

Marjorie. Beautiful bright rose-pink

Marjorie. Beautiful bright rose-pink blooms. 12 in.

Nancy. Masses of pale flesh-pink flowers

that almost hide all foliage. 12 in. **Niobe.** White flowers in compact mass

with yellow centers. 12 in.

Ronald. Has rose-pink buds opening to

bright lilac-pink. Showy. 12 in.

Victor. Clear lavender-blue flowers.

Dwarfest of all. Barely 9 in.

Hardy Chrysanthemum

OTHER NEW HARDY ASTERS

Beechwood Challenger. The best of the red asters. Upright yet bushy growth and clean, healthy foliage. 4 ft.

35 cts. each, three for 90 cts.

Frikarti (Wonder of Staefa). Large flowers of violet-blue with large yellow center. Blossoms from late July to frost. 2 to 2½ ft.

50 cts. each, three for \$1.25.

Harrington's Pink. A truly pink hardy aster. Large flowers completely covering the plant. September. 4 ft.

50 cts. each, three for \$1.25.

Mount Everest. The finest and best white. September to frost. 3 to 4 ft. Skylands Queen. A splendid pale blue, large flowered, new introduction. Sep-

tember. 3 to 4 ft.

35 cts. each, three for 90c, \$3 per doz. Violette. The finest dark blue aster. 4 ft. September.

50 cts. each, three for \$1.25.

HARDY CHRYSANTHEMUMS

Ciara Curtis. Single fragrant pink flowers of large size when well established. September. 1-1½ ft.

35 cts. each, \$3.50 per doz.

Dean Ladd. Large, double, reddishbronze flowers appearing in July and
continuing until frost. 18-24 in.

35 cts. each, \$3.50 per doz.

My Lady. Fully double, very large, beautiful orange-yellow flowers from July to frost. 18-24 in.

35 cts. each, \$3.50 per doz.

September Bronze. Best bronze pompon vet. September.

September Cloud. White pompon with primrose shading in center. September.

September Gold. Flowers trim and neat making well-rounded plants. September. 1½ ft.

Silver Moon. Single white flowers with yellow center. Has mild, sweet fragrance. 2½ ft. September.

All plants on this page 25 cents each, three of one kind for 60 cents, \$2 per dozen, except as otherwise noted.

NEW GIANT HEMEROCALLIS

Bagdad. Rich brown red tones. June-July. 4 ft. \$1.00 each. Cinnabar. Light bronzy red suffused

with gold. June. $2\frac{1}{2}$ ft. 50 cts. each. Dauntless. Pale cadmium yellow, green-

Dauntless. Pale cadmium yellow, greenish throat, fulvus touch on each petal. July. 2½ ft. \$1.00 each. Hyperion. Immense pale yellow flowers.

July-August. $3\frac{1}{2}$ ft. 75 cts. each. Imperator. Rich orange, lined buff and

copper. July-August.

35 cts. each, three for 90 cts.

Margaret Perry. Brilliant orange red lined soft yellow. July-August.

Mikado. Large, rich orange flowers marked with purple-red. June-July. 2½ ft. 35 cts. each.

Rajah. Delicate orange, eye zone of garnet brown. June-July. \$1.50 each. See page 6 for complete list of Hemerocallis Hybrids.

OTHER NEW WORTHWHILE PERENNIALS

ANTHEMIS MOONLIGHT. Large, pale yellow daisy-like flowers. 2½ inches in diameter. Profuse bloomer. June-July. 50 cts. each, three for \$1.25.

DORONICUM clusi. Grows about 12–15 inches tall with large yellow daisy-like flowers. Might be called a dwarf plantagineum.

GAILLARDIA MR. SHERBROOKE.
Flowers of a rich golden yellow. Strong

35 cts. each, three for 90c, \$3 per doz.

GYPSOPHILA repens Rosenschleier. A
new dwarf double form of compact
habit. The pink flowers appear early,
making it very desirable for either
garden display or cutting. 18 in.
50cts. each, three for \$1.25.

IRIS Leut. de Chavagnac. A violet dwarf iris that is among the most reliable

of the fall blooming sorts.

1. siberica Peggy Perry. Ruffled rich violet blue flowers with a white center. Early blooming.

LIATRIS scariosa alba. Imposing spikes more than half covered with clean, buttonlike blossoms. August-September. 3 ft. 50 cts. each, three for \$1.25.

RUSSELL LUPINES. This strain of Hybrid Lupines has been highly recommended and widely advertised. Has wide range of bright colors.

35 cts. each, \$3.50 per doz.

PAPAVER orientale Sass Pink. A beautiful large pale pink, with grey-mauve pollen and a maroon blotch at base of

the petals.

P. Salmon Glow (Double). A fine double salmon-orange not to be confused with Olympia. The flowers are exceptionally large, fully 8 inches across. It is a Dutch origination and selected for the Wisley trials. It received a first class certificate in Holland and is spoken of as a beautiful double salmon-orange. Strong upright growing Poppy. It was much admired in our nursery.

75 cts. each, three for \$2.00.

PHLOX AUGUSTA. U. S. Plant Patent No. 252. Called "the finest American-Beauty-red Phlox ever introduced." Grows 2 to 2½ ft. and holds its color well in the sun.

Three for \$1.50, \$5.00 per doz.

P. Columbia. U. S. Plant Patent No. 118. Rich cameo pink blooms with faint blue eye. Has a long blooming season. 40 cts. each, \$1.10 per three, \$3.30 doz.

P. Daily Sketch. An outstanding novelty with large trusses composed of enormous individual flowers of light salmon pink with faint carmine eye.

See page 9 for other new varieties of Phlox and complete list.

PYRETHRUM James Kelway. Vivid scarlet flowers, very large and free.

STOKESIA BLUE MOON. Has immense light blue, disc-like flowers, 5 inches in diameter, on stiff stems. 12–18 inches in length. July-September. 50 cts. each. three for \$1.25.

TROLLIUS fortunei. Brilliant orange flowers of large size. Everblooming.

T. ledebouri Golden Queen. Rich golden flowers often three inches across with orange stamens. Blooms in June and July with three foot stems.

VERONICA Blue Ridge. Here is a dark blue V. longifolia, taller than V. subsessilis. 50 cts. each, \$5 per doz.

All plants on this page 25 cents each, three of one kind for 60 cents, \$2 per dozen, except as otherwise noted.

BACK THE ATTACK—BUY WAR BONDS

MOSAIC-FREE LILIES FOR SPRING PLANTING

Plant clean, healthy stock free of the insidious mosaic which has accounted for most of your past failures with lilies.

Horsford's bulbs will guarantee your success. Recent discoveries by scientists show mosaic as the greatest contributor to all losses in Hardy Lilies.

We can offer the following varieties in clean stock and we give complete cultural directions with every order.

Amabile. A rare Korean of interesting shape. Grenadine-red, freely spotted black. July. 3 to 4 ft. 40c each, \$4.00 per doz.

Callosum. Flowers unspotted orange red and Turkscap-shaped. Height, 2 to 3 ft. August-September. 30c each, \$3.00 per doz.

Canadense. We're sorry we can't guarantee the color of this wild Lily, but everything else about it is all right. May be a brick-red, or a clear golden yellow. June, July. 2 to 5 ft. 15c each, \$1.50 per doz.

Concolor. Handsome little variety only 18 in, high with striking upright star-

shaped flowers of a deep crimson shade with darker spots. It will stand full sun, lime soil and is suitable for rockeries. Base rooting and is best set only 4 in. deep. June-July. 40c each, \$4.00 per doz.

Creelman Seedlings. Beautiful trumpet lilies grown from the seed of the famous George C. Creelman Hybrid. Vigorous stems with many gorgeous white blooms. July. 4 to 5 ft. 80c each, \$8.00 per doz. Fall delivery only.

Davidii. A very vigorous and dependable Lily of Turk's Cap type. Numerous red flowers. July-August. 4 to 6 ft. 80c each, \$8.00 per doz.

Lilium Regale

LILIES FOR SPRING PLANTING (Continued)

Pride of Charlotte

Hansonii. Its nodding flowers, with their thick waxen petals, will bring you their delicate fragrance; the earliest of all lilies. Six to ten reddish orange blooms in a cluster. June. 3 to 4 ft. 60c each, \$6.00 per doz.

Horsfordi. This splendid creation arrived through the crossing of the vigorous and tall growing L. maximowiczii and the lovely L. batemanni. Color is a mild apricot with black spots. 3 ft. July. Price. 80c each. \$8.00 per doz.

Philippinense formosanum. A variety of refined and graceful appearance, with long, grassy foliage. It reaches four feet with long trumpet flowers, pure white inside, slightly tinted reddish-brown outside. August-September. 35c each, \$3.50 per doz.

Pride of Charlotte. This stately offspring of L. sargentiae is more rugged than its parent. Long, white funnel-shaped flowers with yellow throat and sometimes marked externally a deep reddish-brown. 3 to 4 ft. July. 80c each, \$8.00 per doz. Large bulbs \$1.00 each

Regale. A truly Regal beauty, and the best behaved queen of the lot. Parade her before a royal curtain of Delphinium to show her off to best advantage. White, slightly suffused with pink, shading to beautiful shade of canary-yellow at the throat. July. 3 to 5 ft. 60c each, \$6.00 per doz.

Superbum. America's handsomest native Lily, in our opinion, with its immense, pyramidal cluster of blooms right up high where you can admire them. Brilliant orange-red shading to yellow and spotted with brown. July. 4 to 6 ft. 35c each. \$3.50 per doz.

Tenuifolium. A small slender growing lily, not more than eighteen inches high, with bright scarlet flowers and recurved petals. One of the prettiest little lilies in cultivation. Early June. 12 to 18 in. 25c each, \$2.50 per doz.

Tenuifolium. Var. Golden Gleam. A fine type of L. Tenuifolium with flowers of a beautiful apricot shade. A free and vigorous grower. 30c each, \$3.00 per doz.

Osmunda cinnamomea

HARDY FERNS

Perhaps, some time, some great scholar or chemist will devise a universal color language that can really picture color so one can see it. We wish we had it now, to tell you what we see in our Ferns, with their seemingly limitless variations of green and their intricate varied shapes and forms.

Individual families do not describe easily, for the variations of each are too great. The best we can do is to point out that there is some variety of Fern that can be grown in almost any conceivable location, be it a rocky hillside or a dank swamp, and that all of the plants in our list are absolutely hardy. And, of course, no other family, as a whole, does so well in shade. Our list supplies all the information you may need as to where to use each variety.

Variety Common Name	Ht. feet	Use	Situation
ADIANTUM pedatum. Maidenhair Fern	1–1½	S	M
ASPIDIUM clintonianum		S	M
cristatum	1	PS	M
filix-mas. Male Fern	11/2-2	S	R

Key: Use—S, shade; PS, partial shade; O, open ground; O-S sun or shade. Situation—M, moist; D, dry; W, wet or boggy; R, rockwork.

EASY-TO-GROW FERNS

For Shady or Difficult Locations

FOR THE OPEN BORDER

Mostly tall Ferns with bold, broad foliage, and imposing appearance. They are adapted to sunshine but need the shelter of adjacent plants about the base of the fronds. Plant them in mixed groups among low shrubs.

- 6 Osmunda claytoniana.6 Onoclea struthiopteris.3-4 ft.
- 18 Dicksonia punctilobula. 1-2 ft.
- 6 Asplenium felix-fæmina. 1-3 ft.

36 Ferns for \$4.00

FOR WET, OPEN GROUND

No trouble at all to find ordinary plants for wet, open ground but not many Ferns are adapted to the sunshine. Use rushes or flowering plants freely in such situations.

12 Onoclea sensibilis. 1 ft.12 Osmunda regalis. 2-3 ft.

24 Ferns for \$2.50

Asplenium felix-fæmina

FOR DRY, ROCKY LEDGE

Some of the choicest little Ferns are found in such places in nature. Mostly they are dwarf—frequently half evergreen—but always charming in outline, texture and aspect.

- 12 Asplenium trichomanes. 3-6 in.
- 12 Woodsia obtusa. 6-12 in.
- 12 Polypodium vulgare. 6 in.
- 12 Woodsia ilvensis. 6 in.

48 Ferns for \$4.50

FOR MOIST, SHADY PLACES

The wealth of plants which will flourish in moist, shady places is embarrassing. Ferns are no exception. Choose those of relatively low stature, among which to mingle blooming plants such as bog orchids.

- 6 Adiantum pedatum. 1-11/2 ft.
- 6 Aspidium cristatum. 1 ft.
- 6 Polystichum acrostichoides. 1 ft.
- 6 Aspidium spinulosum. 1½-2 ft.
- 6 Aspidium marginale. 1½-2 ft.
- 6 Asplenium acrostichoides. 3 ft.
- 6 Asplenium felix-fæmina. 1-3 ft.
- 6 Phegopteris hexagonoptera. 1 ft.6 Asplenium angustifolium. 2-3 ft.

54 Ferns for \$5.00

FOR DRY, SHADY PLACES

Under trees, in the shade of buildings where the soil is too dry for blooming plants, these Ferns may adapt themselves or if not all, some may. Dry shade is one of the gardener's hardest problems.

- 9 Aspidium marginale. 11/2-2 ft.
- 9 Dicksonia punctilobula. 1-2 ft.
- 9 Osmunda claytonia. 2-3 ft.
- 9 Polystichum acrostichoides. 1 ft.

36 Ferns for \$4.50

Any of the above Ferns 20c each, 6 for 75c, \$1.50 per doz.

SELECTED ROSES WITH "NORTH COUNTRY" HARDINESS

Our Rose-list may seem peculiar to you, particularly if you go hunting for Columbia or Killarney or some of the good honest Hybrid Tea Roses that are usually found in catalogs. But you see, we just can't "make a go of them" up here in the North Country. Perhaps they'll be all right for a year or two, and then we'll have a winter like 1933 and there won't be much left.

So, instead, we stick to the Species, Hardy Climbers, Shrub Roses and the Hybrid Perpetuals. They are as hardy as other Regal Plants, and have just as interesting form and flowers. There are good whites, reds, pinks, yellows, singles and doubles, in every type of form and shape. Most of them require much less care than the so-called "ever-blooming" Roses. It's just that there aren't so many to choose from, though you can depend on the choice you make.

HYBRID PERPETUAL ROSES

We offer the following at \$1.00 each, \$10.00 per doz.

Frau Karl Druschki. This charming Rose is among the best of the double whites. If it has any fault yet seen, it is that it is too free with its splendidly formed blooms.

General Jacqueminot. An old favorite that should be in every Rose-garden, with its fragrant, large, very showy flowers of bright, velvety crimson.

Harrison's Yellow. This is not a Hybrid Perpetual, but a big, bushy Briar Rose, common in old-time gardens, where it blooms in great billows of bright yellow very early in the season.

J. B. Clark. Intense deep scarlet, shaded blackish maroon, in exceedingly large and full blooms of moderate fragrance. Plant a rampant grower, blooming best in June, but sometimes repeating in the fall.

Magna Charta. Hardy. Handsome pink flowers in June, on long stems. Exceedingly fragrant.

Mrs. John Laing. Soft pink blooms of good form; fragrant. Free flowering. One of the finest June Roses.

Paul Neyron. The largest Rose in cultivation. Flowers clear deep rose, extremely double, intensely fragrant, and borne on long stems.

Prince Camille de Rohan. Deep velvety crimson-maroon, shaded scarlet. A magnificent dark Rose.

HYBRID PERPETUAL ROSES (Continued)

Ulrich Brunner. Bright cherry-red blooms on long, light green, almost smooth stems. Free flowering.

SPECIES

ROSA rugosa. Russian Rose. A very desirable and hardy species with large, solitary, red, or sometimes white, flowers, coming in long succession.

60 cts. each, \$6 per doz.

rugosa, Dr. Eckener. A new rugosa hybrid of recent introduction. Flowers of salmon pink with gold base.

60 cts. each, \$6 per doz.

rugosa, Hansa. Very hardy variety with dark purple-red flowers. It is especially satisfactory in our severe climate.

60 cts. each, \$6 per doz.

wichuriana. Cemetery or Memorial Rose. A splendid Rose for growing where it will receive no care. Gives a great profusion of single white flowers. 50 cts. each, \$5 per doz.

HARDY CLIMBING ROSES

- American Pillar. Very lusty Climber with bold, waxy foliage, bearing tremendous clusters of large, sparkling pink, single flowers with a round white eye and bright golden stamens. 60 cts. each, \$6 per doz.
- Dorothy Perkins. The Rose of our New England countryside, where its mass of pink bloom makes colorful hedges, frames doorways, or decorates garden trellises each June. 60 cts. each.
- Dr. W. Van Fleet. The first and, many people think, still the best of the Hardy Climbers with Hybrid-Tea-Type blooms.

 Long, clear pink buds opening to 4-inch blush-pink flowers.

 75 cts. each.
- Excelsa. Flowers brilliant scarlet-crimson, produced in immense clusters on plants of great vigor and beauty. Altogether the best of its type.

 75 cts. each.
- New Dawn. Plant Patent No. 1. Many of those who argue with the Van Fleet enthusiasts present this Climber as superior because of its equal hardiness and similar bloom.

 \$1.50 each.

Paul's Scarlet Climber. Clear, vivid, shining, large, semi-double flowers which remain unusually long and in good condition on the plants, and never turn blue.

75 cts. each.

White Dorothy Perkins. A counterpart of Dorothy Perkins, except in color, showing a faint trace of pink in bud and opening to a pure white flower. 60 cts. each.

OTHER CHOICE GARDEN and SHRUB ROSES

Baby Rambler (Dwarf Crimson Rambler). Constantly in flower from early spring until frost, with good-sized trusses of crimson flowers much like Crimson Rambler.

60 cts. each, \$6 per doz.

F. J. Grootendorst. This variety has been aptly described as "a Rugosa Rose with the flowers of a red carnation." No other Rose in any other class excels it in continuous bloom. The habit is bushy and vigorous, and it is adaptable for single specimens or hedges.

75 cts. each, \$7.50 per doz.

- Pink Grootendorst. A charming, bright shell-pink variation of the scarlet F. J. Grootendorst, like it in all other respects and equally valuable. Perhaps because the color is so soft and appealing in the mass, we find that many gardeners prefer it greatly to the hard brilliance of the red variety.

 75 cts. each, \$7.50 per doz.
- Hugonis. Fully as vigorous as Spiræa Vanbouttei, this "Golden Rose of China" makes the same sort of outflowing, graceful, drooping plant. Its early, honestly yellow flowers make a desirable feature for the shrubbery border, the driveway, the garden background, the corner, or a stunning hedge.

75 cts. each, \$7.50 per doz.

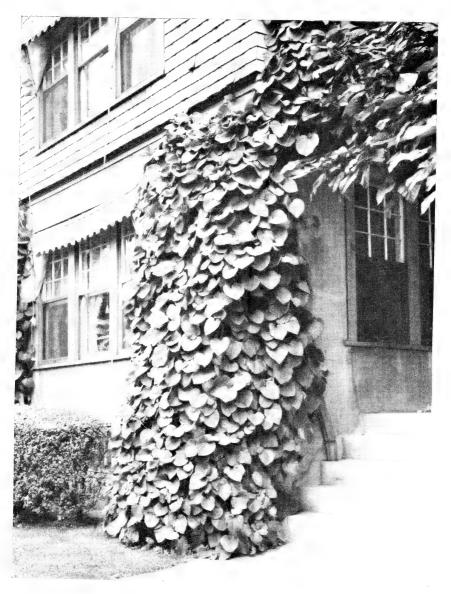

Roses like a good, deep, rich loam. There is little danger of getting the soil too rich. Shallow, sandy or gravelly soils are not suited to them. When necessary to plant in such soils as these, artificial compost should be made by taking out a foot and a half of this natural soil, and filling in with rich heavy loam.

EVERGREENS

Evergreens are especially useful for foundation plantings, wind-breaks and screen plantings. Be sure and allow plenty of space for your Spruces and Hemlocks to develop.

Aristolochia Macrophylla (Dutchman's Pipe)

VINES, TRAILERS AND CLIMBERS

Most of these are old stand-bys, varieties that have been growing and blooming in New England gardens for a century or more in many cases. We are certain of the hardiness of every one of them, and of that extra vigor and life that seems to come from our Vermont country.

- ARISTOLOCHIA macrophylla. Dutchman's Pipe. Fine climber; large, dark green leaves; small, quaint flowers, shaped like a pipe, purple and green. 75 cts. each.
- CELASTRUS orbiculatus. Japan Bittersweet. A vigorous grower, bearing a profusion of orange-yellow fruit with crimson seeds. 40 cts. each.
 - scandens. Bittersweet. Handsome twining shrub with dark green foliage and attractive orange-colored fruit. Fine for covering old walls or stone-heaps.

30 cts. each, \$3 per doz.

CLEMATIS Jackmani. Very beautiful, large, dark purple flowers. The showiest and handsomest of all the Clematis.

2-yr. plants, 75 cts. each.

Mme Edouard Andre. Crimson.

- 2-yr. plants, 75 cts. each.

 paniculata. One of the handsomest
 Clematis in cultivation. Strong climbing vine, often 12 feet high, covered with fragrant white flowers, as if by a mantle.

 40 cts. each, \$4 per doz.
- EUONYMUS radicans. A splendid evergreen creeping plant with pretty, deep green, small foliage. Useful for covering low stone walls or stumps. As an edging plant it can be kept closely clipped. 50 cts. each, \$5 per doz.
 - E. radicans vegeta. Evergreen Bittersweet. True. This very handsome variety has broad, shining leaves and handsome scarlet fruits. The most desirable sort for covering walls and rocky places, and fine for the rock-garden.

75 cts. each, \$7.50 per doz.

- LONICERA periclymenum belgica. Scarlet Honeysuckle. A very fine, red-flowered form, almost shrubbery. It is also quite hardy. 40 cts. each, \$4 per doz.
- LYCHIUM chinense. Matrimony Vine.
 Hardy climber, covered with scarlet fruit in autumn.

35 cts. each, \$3.50 per doz.

POLYGONUM auberti. Chinese Fleecevine. A tall-growing, hardy vine with bronzy young leaves which turn green and an abundance of white flowers in feathery sprays.

2-yr. plants, 75 cts. each.

PSEDERA (Ampelopsis) quinquefolia. Virginia Greeper; American Woodbine. Its beautiful dark green foliage covers trellises or stone walls and turns to a charming dark red in autumn.

25 cts. each, \$2.50 per doz. quinquefolia engelmanni. A form which clings to rocks and may be used where the Boston Ivy would not be hardy.

35 cts. each, \$3.50 per doz.

tricuspidata (A. veitchii). Boston Ivy. Clings closely to wood or stonework and colors beautifully in autumn.

50 cts. each, \$5 per doz.

- **TECOMA** (Bignonia) radicans. Trumpet Creeper. Orange-scarlet, trumpet-shaped, showy flowers. A tall climber. 35 cts. each, \$3.50 per doz.
- VINCA minor cærulea. Myrtle. For shady places. Fine clumps.
 - 20 cts. each, \$1.50 per doz., \$12 per 100. V. minor alba. White Perivinkle. The white-flowering form of preceding, which has not been plentiful in recent years.

25 cts. each, \$2 per doz., \$15 per 100.

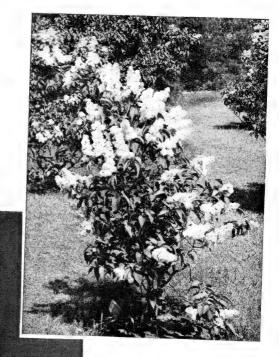

V. minor, Bowles' Variety. An excellent variety of recent introductions with broad, somewhat crinkly glossy green leaves. Flowers large, of a deep, rich blue color, unsurpassed ground cover.

35 cts. each, \$3 per doz., \$20 per 100.

- **WISTERIA.** Forms thick, woody stems and climbs high. Their spring bloom is produced in rich cascades and they flower at intervals all summer.
 - chinensis. Large, purple flowers, produced in great profusion on established plants. Native of China.

18 to 24 in., 75 cts, each.

Regarding small lots of assorted plants or shrubs

One to four plants of one identical kind or color will be priced at the each rate, except in the case of Perennials and Rock Garden Plants where the rate for three of the same kind is 60 cents.

This is necessary as each different kind or color has to be wrapped and labeled separately and considerable time is required to assemble an order made up of small lots of kinds that are widely separated over the nursery.
